

Personal Emergency/Disaster Action Information

City College of San Francisco

If you or your loved ones are separated during a disaster, each person should call the designated out of state or area contact person to report his/her location and status. It usually easier to call long distance out of area or state after a disaster.

After a disaster, and when possible, update your voicemail or answering greeting to give callers a time reference and your status.

Designated Out of Area/State Contact Number

Contact: _____

Phone Number - Home: _____

Cell: _____

My Local Emergency Contact Numbers

Contact: _____

Phone Number - Home: _____
